

Non-GMO Soybean Program in your Area

Clarkson Grain’s ability to supply Identity-Preserved Non-GMO Soy Food Ingredients is enhanced by Benson Hill genetics.

At Benson Hill, we believe that better feed, food, and fuel start with better seeds. Our industry-leading Ultra-High Protein (UHP), and Specialty product portfolios offer higher protein with competitive yields. Take advantage of these genetics as part of Clarkson Grain’s 2025 Crop Identity-Preserved Non-GMO Soybean program.

Significant discounts with early commitment window in 2024 through December!

	Product	Variety	RM	MSRP	Dec*	Jan*
	UHP	E3782	3.7	\$70	\$64	\$66
	UHP	E3776	3.7	\$70	\$64	\$66
New!	UHP	BH37U221	3.7	\$75	\$69	\$71
