

Non-GMO Soybean Program in your Area

White River’s ability to supply better nutritional outcomes is enhanced by Benson Hill genetics.

At Benson Hill, we believe that better feed, food, and fuel start with better seeds. Our industry-leading Ultra-High Protein, Low Oligosaccharide (UHP-LO) product portfolio offers higher protein with competitive yields. Take advantage of these genetics as part of the White River Nutrition Specialty Soybean program.

Significant discounts with early commitment window in 2024 through December!

Product	Variety	RM	MSRP	Oct*	Nov*	Dec*	
UHP-LO	BH31Q146	3.1	\$72	\$62	\$64	\$66
